APPENDIX A

Interruption to Play:

In the event of play at any venue being prevented by weather (or other unforeseen circumstances) the following protocols shall assist the Tournament Director in making a fair and reasonable decision:

- a) In all circumstances, the impact of the interruption on any green shall be treated in isolation; i.e. the entire event shall not be automatically impacted by the circumstances that have caused a delay in play on any green.
- b) The greenkeeper shall have the right to close a green at any time during the scheduled day's play when the continuation of play presents a health and safety threat to players and / or, in the opinion of the greenkeeper, risks damage to the green.
- c) Where the interruption is likely to mean a significant delay in the schedule of play for the day the Tournament Director, in conjunction with the umpire(s) present and / or the venue controller, may alter the Conditions of Play for that green. These changes may allow for play to:
 - i. continue on an artificial green (if available and / or previously allocated to the affected green in the event of interruption), or
 - ii. be reduced to allow for all remaining games on the affected day to be completed once play is possible again.

Any decision relating to an interruption in play shall be made with the intention of ensuring that the integrity of the tournament is preserved, and the health and safety of players and officials is not compromised.

- d) Where the options in c) (above) do not allow for a resumption in play on the affected day, the Tournament Director shall consider a reduction in either the number of games, or the length of games, to be played in the days subsequent to the interruption.
- e) Where the affected games are part of the qualification rounds the Tournament Director may deem that a player / team shall qualify for post-section play providing they have not already lost the number of games (as per the Conditions of Play) that would make it impossible for them to qualify.
