

Breast Cancer
Foundation NZ

Double Breasted?

Guys can get
breast cancer too

As many as 25 per year

If in doubt, get it checked out.

25

men are diagnosed with breast cancer in New Zealand each year.

While rare, the most common symptoms in men are a painless breast lump or nipple discharge.

Show your doctor any breast changes **especially if you're 50 plus and have a close family history of breast or ovarian cancer.**

For advice call our breast nurse, freephone **0800 BC NURSE** (0800 226 8773) or visit www.breastcancerfoundation.org.nz
